

Heptapolis Humanitarian Energy Coin

The only, truly backed up, Humanitarian, Energy,
Security Crypto

WHY TO INVEST IN **HHEC**

Unique characteristics

- › we already have working products, we don't wait for the ICO to develop them
- › is funding big projects based on our products with reoccurring profits
- › it constitutes the base of a whole ecosystem of products and services
- › backed up to the 50% of its value with money and assets
- › uniquely positive ratio between risk and reward
- › has its own payment solution with IBAN number and a debit card
- › no dilution can take place since all the tradeable coins (even ours) have to be back up first
- › we are even buying back coins at ICO period

Our Vision

The establishment of the Heptapolis Humanitarian Energy Coin (HHEC) will trigger the launch of a huge movement aiming to revolutionize the global green energy production along with enhancing the world's educational system.

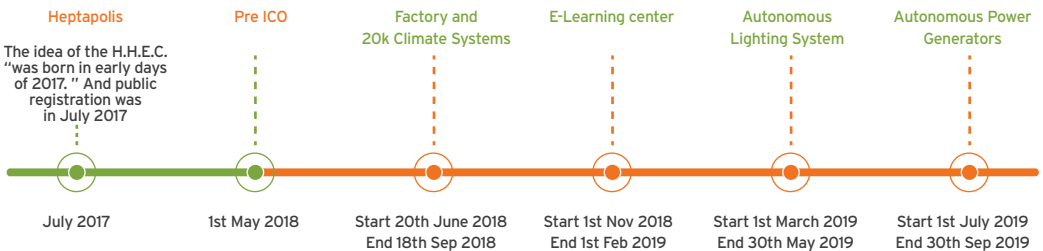

Moreover, the creation of an ecosystem which is based on a cryptocurrency, a variety of green products, an e-learning center, an e-shop with thousands of products and a payment solution will emerge as one of the greatest opportunities in the blockchain technology that nobody wants to miss!

How HHEC is truly backed up?

The HHEC currency offers one of the biggest opportunities in the field of blockchain technology through its innovative features. These features will SUPPORT the value of HHEC by the following procedure:

- > 20% of all revenue from products supported by ICO
- > 20% of Passive Income generated by Green Energy projects and funded by ICO
- > 20% of the amount paid for tuition fees at Heptapolis Avatar E-Learning

Road Map
